ASSERTS U. S. FIRM FINANCED REBELS

Levy Mayer Accuses Harvester Company of Intriguing in Mexico.

Charges that the International Harvester Company had furnished money for arms and ammunition for the Ortiz-Arriaga revolution against the Carranza government in Yucatan, Mexico, were made today by Levy Mayer of Chicago, in the Senate agriculture committee's investigation into an alleged monopoly of control of the sisal market.

Walter L. Fisher, former Secretary of the Interior, counsel for the Harvester Company, displayed to the committee a bundle of bills, part of \$500,000 persons issued by the Yucatan commission, formed for controlling the sisal crop.

He was undertaking to explain that the bills had come into the possession of the Harvester Company from a draft for \$400,000 gold issued to Angelino Montes, a sisal purchaser, who, the Yucatan planters assert, represented solely the Harvester Company, when he was interrupted by Mayer, who declared they gave the draft to raise money for stirring up a revolution.

"That's just talk," retorted Mr. Fisher.

"We will be able to show and introduce into the record the invoices and bills showing that at least part of the money went to an arms purchasing company of New York to buy rifles and ammunition," replied Mayer.

Mr. Fisher asserted the money from the draft was given the Yucatan government in exchange for the commission's money in order to have currency to pay the sisal planters.

The Ortiz-Arriaga government had control of Yucatan for a short time in 1915 and was overthrown by the Carranza army.

ANTI-WASTE CAMPAIGN
 TO BEGIN FEBRUARY 29

Will Be Launched by Housekeepers' Alliance at Special Meeting Already Called.

A "household economy-anti-waste" campaign is to be launched by the Housekeepers' Alliance at a meeting which has been called for the afternoon of February 29 at 2:30 o'clock at the Home Club, 14 Jackson place northwest.

The purpose of the campaign will be to eliminate as far as possible the waste which the alliance believes is characteristic of almost every American household. The campaign will have a bearing on the general subject of preparedness, since it will be in the interest of conservation of resources.

The Housekeepers' Alliance believes Americans have become notorious for their waste, it being said that the average American family wastes enough to keep a family in Europe. The alliance wants to put an end to such waste by teaching the housekeeper how to economize.

In a letter which has been sent to the members of the Housekeepers' Alliance by its president, Mrs. Flora McDonald Thompson, it is stated that an outline of the war on waste to be undertaken by the organization will be made at the meeting to be held February 29.

"We want to make this meeting something in the nature of an old-fashioned 'experience' party," says Mrs. Thompson in her letter.
